

Gbenga Oluwadahunsi

Software Developer

SUMMARY

A creative, detail-oriented developer with a strong interest in artificial intelligence.

I have a track record of creating and launching successful front and backend web applications and I'm looking to contribute my skills to a global tech company.

WORK EXPERIENCE

Software Developer at 100devs.

October 2022 — Present

Created full-stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy. Some clients included: RCCG Wealthy Place Church, Haveelah Makeup.

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full-stack web applications

Recent Projects:

Tranquilla Music streaming App

A music app tailored according to the genre of music that you prefer and the mood that you are in.

Tasty-Yumzie food restaurant and service (Fullstack Web App)

The cashier can take coffee orders from customers with their names. Baristas can log in to the app and see orders that have been made, and mark them as complete. Orders that have been completed will note which barista completed the order.

Haveelah Beauty (Fullstack Web App)

Users can log in to their profile and find their list of notes. They can add new notes through an input, which they can then edit or delete all notes in their profile.

Other Projects: Africa continenta Web App, Web App with NASA API integration, and many more.

Research Bioinformation | Akungba-Akoko, Nigeria

January 2015 — December 2021

I used computer tools to probe and solve biological problems in Alzheimer's disease research, generate data and published the results.

VOLUNTEERING

Free Software Foundation | Remote

March 2022 — Present

Helping students and folks who are from non-technical backgrounds who are seeking to change their careers by connecting them to the right courses and other educational materials.
